

7<sup>th</sup> January 2026

Dear Parents and Carers,

As we move further into the winter months, we want to ensure you are prepared in the event of adverse weather conditions affecting the normal operation of the school.

In the case of extreme weather, such as snow or ice, that may require the school to close or adjust its opening hours, we will communicate any updates promptly. Please note the following channels where you can access information:

1. Kent Online Radio – Tune in for live updates regarding school closures across the area.
2. Our School Website – Any decisions regarding closures or changes to the school day will be posted on the homepage as soon as possible.
3. Text Message – We will also send a text message directly to parents and carers to keep you informed.

We advise all parents and carers to check these channels regularly during adverse weather conditions, particularly in the early morning.

Thank you for your understanding and cooperation as we work to keep everyone informed and safe.

Warm wishes,

*Alistair*
